

Las Vegas FSDO FAASTeam presents:

# **Mid Air Collision Avoidance Briefing and Two-Way Radio Communication Procedures**

Mid Air Collision Avoidance briefing for Nellis AFB and the Nevada Test and Training Range (NTTR). Briefing will include Lights Out Training, airspace controlled by Nellis Air Traffic Control Facility (NATCF), Special Use Airspace on the NTTR, Military Training Routes in the area, Nellis AFB operations, preferred routes through the NTTR and in assigned airspace outside the NTTR, theme is "Squawk and Talk" for safety of flight.

Note: Pilot airspace deviations continue to be a major risk in the national airspace system. To reduce the chance that you might be involved in an airspace deviation incident, you are highly encouraged to take an on-line learning center course on [www.faasafety.gov](http://www.faasafety.gov). Or search the learning library for associated guidance on airspace incursions. Remember, safe and prudent airmen have superior situational awareness, and have a plan to keep it that way. Thanks! A message from your local FAASTeam.

**Directions:** Conference Room first floor

**A message from the National FAASTeam Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
